

ITALO DISCO VST SERIES

Thank you for purchasing this Italo Disco Set 1 VST instrument.

The Italo Disco Set 1 VST is not just a repackaging of the Italo Disco VST instruments previously available from Beat Machine, but a massive overhaul. A nicer GUI with more features like LFO, Pitch/Tune, LP Filter and a simple but effective effects engine are now included, plus there are many extra quality Italo sounds for you to use in your productions.

NOTE: Please place the included fonts into your 'FONTS' folder on your computer. This will show the correct display like what is shown above.

To Install the VSTi: Place the entire folder into your VST plugins folder. When you then start your DAW, it will automatically be integrated within your setup.

This instrument is now VST 3 ready and available for Mac users.

Here is a short video showing how to get up & running quickly in Windows...

I hope you enjoy this VSTi release.

We are always interested in hearing any productions where you use any of our instruments or samples. Send us a link to retrobeat1985@gmail.com or find us on YouTube & Facebook as Beat Machine Drum Sample Packs.

*Finally, may we ask you to **please not illegally share, duplicate or modify** this instrument in any way. Illegal distribution will only jeopardise future releases. Thank you.*
