

SC55

01 - Roland SC55 GM

Thank you for purchasing the SC55 Sound Canvas VST instrument.

A staple 'must have' for any studio. The complete 128 General MIDI sounds from Roland that are still used to this day. All of the 128 patches have been meticulously sampled and mapped across the keyboard. Pitch, Tune Portamento is included and also a Low/High Pass filter. Due to the low memory usage of VST3 you can open a separate instance of the SC55 for each track. Please see the video demos to see the SC55 VST in action.

NOTE: Please place the included fonts into you 'FONTS' folder on your computer. This will show the correct display like what is shown above.

To Install the VSTi: Place the entire folder into your VST plugins folder. When you then start your DAW, it will automatically be integrated within your setup.

This instrument is now VST 3 ready and available for Mac users.

Here is a short video showing how to get up & running quickly in Windows...

I hope you enjoy this VSTi release.

We are always interested in hearing any productions where you use any of our instruments or samples. Send us a link to retrobeat1985@gmail.com or find us on YouTube & Facebook as Beat Machine Drum Sample Packs.

*Finally, may we ask you to **please not illegally share, duplicate or modify** this instrument in any way. Illegal distribution will only jeopardise future releases. Thank you.*
