

SC55V

Thank you for purchasing the SC55V 'Variation & User' Sound Canvas VST instrument.

Stunning extra sounds from the Roland SC55, taking the Variation patches and the User patches & wrapping them all up into a tidy VST. All of the 64 patches have been meticulously sampled and mapped across the keyboard. Pitch, Tune Portamento is included and also a Low/High Pass filter. Due to the low memory usage of VST3 you can open a separate instance of the SC55 for each track. Please see the video demos to see the SC55 VST in action.

NOTE: Please place the included fonts into you 'FONTS' folder on your computer. This will show the correct display like what is shown above.

To Install the VSTi: Place the entire folder into your VST plugins folder. When you then start your DAW, it will automatically be integrated within your setup.

This instrument is now VST 3 ready and available for Mac users.

Here is a short video showing how to get up & running quickly in Windows...

<https://youtu.be/wiTSdVzNKtg>

I hope you enjoy this VSTi release.

We are always interested in hearing any productions where you use any of our instruments or samples. Send us a link to retrobeat1985@gmail.com or find us on YouTube & Facebook as Beat Machine Drum Sample Packs.

*Finally, may we ask you to **please not illegally share, duplicate or modify** this instrument in any way. Illegal distribution will only jeopardise future releases. Thank you.*

PATCH LIST
