

Thank you for purchasing the Yamaha SY85 VST instrument.

The SY85 VST has been produced as **6 separate VSTs** containing 2 VST instruments each to cover the vast array of patches that the Yamaha SY85 holds. There are some real stunning pads, pianos, synths and bass sounds for you to use in your productions along with punchy drum kits. The VSTs are available to purchase as individual banks or as a bundle.

Every included sound has been meticulously sampled, stacked and mapped across the keyboard. You can manipulate the sound envelope, adjust the filter sweep using the Hi Pass or Low Pass options, change the poly mode to monophonic and add portamento if required. Reverb is also included.

**NOTE: Please place the included fonts into your 'FONTS' folder on your computer. This will show the correct display like what is shown above.**

**To Install the VSTi: Place the entire folder into your VST plugins folder. When you then start your DAW, it will ask you for your serial number. Please input the number making sure not to copy any spaces at the end. It will then be automatically be integrated within your setup.**

I hope you enjoy this VSTi release.

We are always interested in hearing any productions where you use any of our instruments or samples. Send us a link to [info@beatmachine.co.uk](mailto:info@beatmachine.co.uk) or find us on Sound Cloud as Beat Machine Drum Sample Packs.

*Finally, may we ask you to **please not illegally share, duplicate or modify** this instrument in any way. Illegal distribution will only jeopardise future releases. Thank you.*
